

# Pressure transmitter

## For demanding industrial applications

### Model S-20

WIKA data sheet PE 81.61

For further approvals,  
see page 12

#### Applications

- Critical industrial applications
- Demanding applications in research and development
- Harsh environments in the process industry

#### Special features

- Extreme variety, available at short notice from 1 piece
- High accuracy, low temperature error, selectable adjustment temperature
- Proven technology
- Special media and special versions

#### Description

The S-20 pressure transmitter is a versatile specialist for demanding tasks and harsh environments. The measuring ranges from 0 ... 0.4 to 0 ... 1,600 bar [0 ... 5.8 to 0 ... 23,200 psi] can be combined with many output signals, electrical connections and process connections. These configuration options allow for over 1 billion versions and leave much room for tailor-made customisation. The S-20 is also at home in critical industrial applications and works reliably with heat, vibrations or aggressive media.

##### Extreme variety, available at short notice from 1 piece

The S-20 can be freely configured and optimally adapted to the plant requirements. All common versions are available from a batch size of 1 within a few days.

##### High accuracy, low temperature error, selectable adjustment temperature

The S-20 measures pressures particularly accurately and reliably and is available in three accuracy classes. The

Pressure transmitter, model S-20

selectable adjustment temperatures of +4 °C, +40 °C, +60 °C and +80 °C [+39°F, +104 °F, +140 °F, +176 °F] reduce the temperature error to a minimum.

##### Proven technology

The S-20 is based on proven technologies, tried and tested in the field. With up to 100 million load cycles and a long-term stability to < 0.1 %, it constantly provides precise data for processes and plants. Regular audits permanently ensure highest quality standards.

##### Special media and special versions

Versions for special media, e.g. oxygen or hydrogen applications, high temperatures and cleanliness levels are available. In addition, the S-20 can be delivered with IP68 and IP6K9K ingress protection.

# Specifications

The model S-20 is available with an improved non-linearity. Depending on the selected non-linearity the following values result:

| Accuracy specifications                           | Non-linearity<br>≤ ±0.5 % of span           | Non-linearity<br>≤ ±0.25 % of span | Non-linearity<br>≤ ±0.125 % of span <sup>1)</sup> |
|---|---|------------------------------------|---|
| Non-linearity per BFSL per IEC 61298-2            | ≤ ±0.5 % of span                            | ≤ ±0.25 % of span                  | ≤ ±0.125 % of span                                |
| Non-linearity per terminal method per IEC 61298-2 | ≤ ±1 % of span                              | ≤ ±0.5 % of span                   | ≤ ±0.25 % of span                                 |
| Accuracy at adjustment temperature                | → See "Max. measured error per IEC 61298-2" |                                    |   |
| Max. measured error per IEC 61298-2               | ≤ ±1 % of span                              | ≤ ±0.5 % of span                   | ≤ ±0.25 % of span                                 |

- 1) Restrictions for the non-linearity of 0.125 % BFSL or 0.25 % per terminal method:  
 Available output signals: 4 ...20 mA and DC 0 ... 10 V  
 Available measuring ranges: All measuring ranges specified in the data sheet  
 Other output signals or measuring ranges on request.

| Further details on: Accuracy specifications   |   |
|---|---|
| Non-repeatability per IEC 61298-2   | ≤ 0.1 % of span   |
| Zero point error  | <ul style="list-style-type: none"> <li>■ ≤ ±0.2 % of span, factory-set</li> <li>■ ≤ ±0.1 % of span, factory-set <sup>1)</sup></li> </ul>  |
| Temperature hysteresis  | ≤ 0.1 % of span at > 80 °C [176 °F]   |
| Long-term drift per IEC 61298-2   | <ul style="list-style-type: none"> <li>■ ≤ ±0.1 % of span</li> <li>■ ≤ ±0.2 % of span (with special measuring ranges and measuring ranges &lt; 1 bar [15 psi])</li> </ul>   |
| Temperature error (for adjustment temperature 15 ... 25 °C [59 ... 77°F])                                   | → See "Adjustment temperature"<br>For measuring ranges < 1 bar [15 psi], special measuring ranges and instruments with an increased overpressure limit the respective temperature error increases by 0.5 % of span                      |
| Adjustment temperature  | <ul style="list-style-type: none"> <li>■ 15 ... 25 °C [59 ... 77 °F]</li> <li>■ 4 °C ±5 °C [39.2 °F ±9 °F]</li> <li>■ 40 °C ±5 °C [104 °F ±9 °F]</li> <li>■ 60 °C ±5 °C [140 °F ±9 °F]</li> <li>■ 80 °C ±5 °C [176 °F ±9 °F]</li> </ul> |
| <b>Additional zero point error depending on the mounting position for measuring ranges ≤ 1 bar [15 psi]</b> |   |
| Mounting position 180°, vertical, top process connection  | ≤ 1 mbar [≤ 0.015 psi]  |
| Mounting position 90°, horizontal, lateral process connection   | ≤ 0.6 mbar [≤ 0.009 psi]  |
| Reference conditions  | Per IEC 61298-1   |

- 1) Restrictions for zero point error 0.1 % (factory-set):  
 Available output signals: 4 ...20 mA and DC 0 ... 10 V  
 Available measuring ranges: all gauge pressure measuring ranges specified in the data sheet  
 Not available in combination with optional adjustment temperatures.

## Temperature error

### Measuring ranges, gauge pressure

| bar       |             |

| -1 ... +0.6 | -1 ... +24 |
| -1 ... +1.5 | -1 ... +39 |
| -1 ... +3   | -1 ... +59 |

| psi              |                   |
|------------------|-------------------|
| -30 inHg ... 0   | -30 inHg ... +100 |
| -30 inHg ... +15 | -30 inHg ... +160 |
| -30 inHg ... +30 | -30 inHg ... +200 |
| -30 inHg ... +45 | -30 inHg ... +300 |
| -30 inHg ... +60 | -30 inHg ... +500 |

| Further details on: Measuring ranges |  |
|--------------------------------------|--|
| <b>Units</b>                         | <ul style="list-style-type: none"> <li>■ bar</li> <li>■ psi</li> <li>■ kg/cm<sup>2</sup></li> <li>■ MPa</li> <li>■ kPa</li> </ul>  |
| <b>Maximum working pressure</b>      | → Corresponds to the upper measuring range value / measuring range full scale value  |
| <b>Special measuring ranges</b>      | From 0 ... 0.4 to 0 ... 1,600 bar [0 ... 10 to 0 ... 20,000 psi] available on request. Special measuring ranges have a reduced long-term stability and higher temperature errors.  |
| <b>Overpressure limit</b>            | The overpressure limit is based on the measuring range. Depending on the selected process connection and the seal, restrictions in overpressure limit can result. A higher overpressure limit will result in a higher temperature error. |
| Measuring ranges < 10 bar [150 psi]  | <ul style="list-style-type: none"> <li>■ 3 times</li> <li>■ 5 times</li> </ul>   |
| Measuring ranges ≥ 10 bar [150 psi]  | <ul style="list-style-type: none"> <li>■ 2 times <sup>1)</sup></li> <li>■ 3 times <sup>2) 3)</sup></li> </ul>  |
| <b>Vacuum resistance</b>             | Yes  |

1) Restriction: max. 60 bar [870 psi] with absolute pressure

2) Only possible for gauge pressure measuring ranges ≤ 400 bar [5,800 psi]

3) Only possible for absolute pressure measuring ranges < 16 bar [220 psi]

| Process connection  |                     |                        |                        |  |  |

1) For medium temperatures to 150 °C [302 °F] or 200 °C [392 °F] available with cooling element.

2) Wider pressure port with 6 mm [0.24 in] or 12 mm [0.48 in] only feasible for measuring ranges up to and including 0 ...40 bar [0 ... 500 psi].

Details must be tested separately in the respective application. The specified values for the overpressure limit serve only as a rough orientation. The values depend on the temperature, the seal used, the selected torque, the type and the material of the mating thread and the prevailing operating conditions.

Other process connections and seals on request.

| Further details on: Process connection |   |

| <b>Short-circuit resistance</b>                   | <p>S<sub>+</sub> vs. U.</p> <p>→ Not for ratiometric output signals</p>  |

## Further details on: Electrical connection

### Reverse polarity protection

U<sub>+</sub> vs. U<sub>-</sub>

→ No reverse polarity protection with ratiometric output signal

### Insulation voltage

DC 750 V

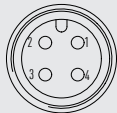

Other cable lengths on request.

## Pin assignment

### Angular connector DIN 175301-803 A

|   |                 | 2-wire | 3-wire |
|---|-----------------|--------|--------|
|  | U <sub>+</sub>  | 1      | 1      |
|   | U <sub>-</sub>  | 2      | 2      |
|   | S <sub>+</sub>  | -      | 3      |
|   | Shield (option) | 4      | 4      |

### Circular connector M12 x 1 (4-pin)

|   |                 | 2-wire | 3-wire |
|---|-----------------|--------|--------|
|  | U <sub>+</sub>  | 1      | 1      |
|   | U <sub>-</sub>  | 3      | 3      |
|   | S <sub>+</sub>  | -      | 4      |
|   | Shield (option) | Case   | Case   |

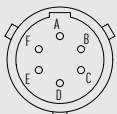

### Angular connector DIN 175301-803 C

|   |                 | 2-wire | 3-wire |
|---|-----------------|--------|--------|
|  | U <sub>+</sub>  | 1      | 1      |
|   | U <sub>-</sub>  | 2      | 2      |
|   | S <sub>+</sub>  | -      | 3      |
|   | Shield (option) | 4      | 4      |

### Field case

|   |                | 2-wire | 3-wire |
|---|----------------|--------|--------|
|  | U <sub>+</sub> | 1      | 1      |
|   | U <sub>-</sub> | 2      | 2      |
|   | S <sub>+</sub> | -      | 3      |
|   | Shield         | 5      | 5      |

### Bayonet connector (6-pin)

|   |                | 2-wire | 3-wire |
|---|----------------|--------|--------|
|  | U <sub>+</sub> | A      | A      |
|   | U <sub>-</sub> | B      | B      |
|   | S <sub>+</sub> | -      | C      |
|   | Shield         | Case   | Case   |

## Legend

- U<sub>+</sub> Positive power supply terminal
- U<sub>-</sub> Negative power supply terminal
- S<sub>+</sub> Analogue output

Other pin assignments on request.

### Cable outlet

|   |                      | 2-wire     | 3-wire     |
|---|----------------------|------------|------------|
|  | U <sub>+</sub>       | Brown (BN) | Brown (BN) |
|   | U <sub>-</sub>       | Blue (BU)  | Blue (BU)  |
|   | S <sub>+</sub>       | -          | Black (BK) |
|   | Shield <sup>1)</sup> | Grey (GY)  | Grey (GY)  |

1) With cable outlet IP67 and cable outlet ½ NPT conduit, the shield is optional

### Mating connector with moulded cable

|   |                | 2-wire     | 3-wire     |
|---|----------------|------------|------------|
|  | U <sub>+</sub> | Brown (BN) | Brown (BN) |
|   | U <sub>-</sub> | Blue (BU)  | Blue (BU)  |
|   | S <sub>+</sub> | -          | Black (BK) |

| -40 ... +125 °C [-40 ... +257 °F] | -40 ... +125 °C [-40 ... +257 °F]               | -  |
| -40 ... +150 °C [-40 ... +302 °F] | -40 ... +125 °C [-40 ... +257 °F] <sup>1)</sup> | 400 bar [5,800 psi]<br>With integrated cooling element |
| -40 ... +200 °C [-40 ... +392 °F] | -40 ... +125 °C [-40 ... +257 °F] <sup>1)</sup> | 400 bar [5,800 psi]<br>With integrated cooling element |
| -20 ... +60 °C [-4 ... +140 °F]   | -20 ... +60 °C [-4 ... +140 °F]                 | Oxygen version   |

1) Derating curve and formula (see following diagram)

## Derating curve for cooling elements

### Maximum permissible ambient temperature

$$T_{amb} (T_{med} < 125 \text{ °C}) = 125 \text{ °C}$$

$$T_{amb} (T_{med} \geq 125 \text{ °C}) = -0.62 \times T_{med} + 202 \text{ °C}$$

### Maximum permissible medium temperature

$$T_{med} (T_{amb} < 80 \text{ °C}) = 200 \text{ °C}$$

$$T_{med} (T_{amb} \geq 80 \text{ °C}) = -1.61 \times T_{amb} + 326 \text{ °C}$$

$T_{amb}$  = ambient temperature [°C]

$T_{med}$  = medium temperature [°C]

Depending on the choice of seal on the process connection and the electrical connection, there may be restrictions in the medium and ambient temperature (for restrictions, see “Process connection” and “Electrical connection”).

## Further details on: Operating conditions

|   |  |
|---|--|
| <b>Storage temperature limit</b>                  | -40 ... +70 °C [-40 ... +158 °F]                           |
| <b>Vibration resistance per IEC 60068-2-6</b>     | 20g, 10 ... 2,000 Hz                                       |

# Dimensions in mm [in]

With angular connector DIN EN 175301-803 A

Weight: approx. 150 g [0.331 lb]

With circular connector M12 x 1 (4-pin)

Weight: approx. 150 g [0.331 lb]

With circular connector M12 x 1 (4-pin, metallic)

Weight: approx. 150 g [0.331 lb]

With bayonet connector (6-pin)

Weight: approx. 150 g [0.331 lb]

With angular connector DIN EN 175301-803 C

Weight: approx. 150 g [0.331 lb]

With field case

Weight: approx. 290 g [0.639 lb]

With cable outlet IP68, FEP, IP6K9K

Weight: approx. 220 g [0.485 lb]

With cable outlet 1/2 NPT conduit

Weight: approx. 220 g [0.485 lb]

## Dimensions in mm [in]

With angular connector DIN 175301-803 A and cooling element

Weight: approx. 360 g [0.794 lb]

With cable outlet IP67

Weight: approx. 150 g [0.331 lb]
